Dear Fana Tesfay Gebregergs,
Your application for the Master's Program in Mechanical Engineering offered by the University of Cassino and Southern Lazio has been positively evaluated: we congratulate you on that!

If you don't need a VISA, just show up at our welcome office by the end of September for the start of the first semester.

If you need a VISA, we strongly suggest you upload your 2024/2025 application to the Italian Government platform for international students, named *Universitaly*, at the soonest. We are receiving a high number of good-quality pre-enrollment applications, and we cannot guarantee, at least for some nationalities, that applications uploaded to *Universitaly* after April 30th will be processed: essentially, we cannot overwhelm Italian consulates with too many visa requests. Be also sure to apply for a VISA soon after our approval on *Universitaly*, thus increasing the possibility of joining us for the forthcoming academic year in due time.

To check whether you need a VISA, go to <https://vistoperitalia.esteri.it/home/en>

To upload your application to *Universitaly* do the following.

- 1) Register at the *Universitaly* portal <https://universitaly-private.cineca.it/index.php/login>
- 2) Enter the *Universitaly* portal and fill in the 'pre-enrolment application.' Please, be careful and select: the academic year 2024/2025, the University of Cassino and Southern Lazio, the Bachelor level of study, and the Master's Program in Mechanical Engineering.
- 3) Submit the application for the pre-enrollment (documents must be in Italian, English, French, Spanish, or Russian) and for the visa. After this step:
 - we will receive an automatic email from the *Universitaly* portal informing us you applied for pre-enrollment;
 - we will check all the information you filled in, and we will validate your request;
 - you and the Embassy will be automatically informed about our validation by email.
- 4) Once you received our validation, please download the pdf file with the Summary of your pre-application and submit it to your Italian Embassy/Consulate to apply for the visa (look at the Embassy website for the documents required for the visa application). After this step:
 - the Embassy/Consulate will evaluate your visa request;
 - you and us will be informed by the Embassy through the *Universitaly* portal about the issuing or the refusal of your visa.

Additional information on the Admission-Enrollment procedure is available at <https://www.unicas.it/international-unicas/international-welcome-service/prospective-international-students-unicas/pre-admission-admission-enrollment/>

We look forward to seeing you soon in our distinguished international classes.

Keep in touch,
The Program Selection Committee.

This is an automatic message sent to you by our system upon the evaluation of your application: please do not reply.
